HOW TO ADAPT A MODULE TO MAKE IT EASIER

Teaching actions

SLOW DOWN THE PACE

Break the module into smaller chunks (1–2 slides at a time)
Add pause points for discussion or repetition
Allow repeated viewing of audio/video sections

SIMPLIFY LANGUAGE

Pre-teach key vocabulary before starting
Provide a glossary or picture card for each new word
Use shorter sentences and repeat important phrases

ADD VISUAL SUPPORTS

Include real images or icons next to each word
Use color-coding for categories (fruits, colors, numbers)
Add subtitles or captions to all audio clips

PROVIDE CLEAR NAVIGATION HELP

Create a paper or on-screen map of the module
Show students where the home, next, and back buttons are
Use a buddy system (pair stronger readers with emerging readers)

REDUCE ANSWER CHOICES

In quizzes or games, reduce from 4 options to 2 or 3
Offer visual answer choices (pictures instead of just text)
Allow verbal instead of typed responses

FOCUS ON ONE SKILL AT A TIME

Day 1: Only listening (recognize fruit words)
Day 2: Only speaking (repeat after audio)
Day 3: Only matching (picture to word)

ADD SCAFFOLDING TOOLS

Provide a printable worksheet that follows the module step by step
Use sentence starters
Include a "help button" (like the Globe character in the original module)
