Guidance Note – How to Use the “physical content” as pedagogical material

In this folder, you will find downloadable and printable teaching materials to help you build your own language awareness activities

   The content includes:

dictionary
dictionary cards
number cards

 These cards can be used:
by theme, or by mixing themes
as simple flashcards

for pair or group games, such as:

a memory game (goal: find matching pairs)

a battle game (goal: players flip cards and look for matches)

a word association game

a pictictionary (One player picks a card and draws the concept that is written on it. He cannot write letters or numbers. The other players try to guess what he is drawing. The first player to find the word in Romanian wins a point, as well as the artist. At the end, the player with the most points win).

 The cards offer multiple playful uses that support learning through fun and interaction.

 You will also find blank cards, allowing you to create your own content based on your learners' needs and ideas.

 Be Matisse for a moment

This drawing combines all the artworks of the cards. Can you find them all and use them as inspiration to colour it in?

 Game: Guess what I am miming (One child draws a card and mimes the instrument or the step of the dance. The other children have to guess what it is.)

 Reading comprehension. Use it to practice reading comprehension, to read aloud to practice pronunciation and interactions, or as a base for a short role play!

 Whatever game you choose, always encourage children to say out loud what they see, point to, or discover. This enhances oral expression and memory.

 Have fun exploring and learning!
